

# COMPANY PROFILE

YOUR PARTNER FOR FUTURE INTRALOGISTICS NEEDS

# About Us

## Company Introduction

### Intralogistics Built for The Future

With the rapid growth of e-commerce and warehouse technologies, new opportunities and challenges abound in the intralogistics sector. From increasing inventories to complex material handling and storage needs, we, Prestar Storage System Sdn Bhd (PSSSB) is committed to deliver innovative solutions for greater efficiency and reliability in our clients' overall supply chain and logistics.

## Your Industrial Storage and Racking Solutions Provider

Prestar Storage System Sdn Bhd (PSSSB) is a leader in storage and shelving solutions, serving a broad range of clients in residential, commercial, and industrial sectors worldwide. Initially a company manufacturing racking and shelving products, PSSSB has grown to become a space-optimising solutions provider. Today, PSSSB strengthens its manufacturing capabilities to produce a range of products under the 'MYSTAR' brand, including boltless rack, pallet racking systems and shelving system products, and is a wholly owned subsidiary of Prestar Resources Berhad (PRB).

## Driven to High Standards and Quality

Our headquarters and world-class manufacturing plant of 80,000 sq ft are in Rawang, Malaysia. Behind our impeccable services and products stands a unique combination of advanced manufacturing facilities and technical expertise. Complementing our diverse product portfolio, we only use certified steel materials and qualified workmanship to provide solutions that meet international quality and safety standards.

## Decades of Storage and Racking Innovation

PSSSB was founded in 2001 to provide customers with maximised and efficient warehouse storage space solutions. This was at a time when land scarcity was an issue, resulting in incremental land costs coupled with rising labour costs. Thus, we encouraged businesses to opt for renewed and strategic uses of space, expanding vertically (upwards) instead of horizontally (wider area). Since then, we have continued to develop innovative storage solutions to help our clients achieve higher storage outputs at minimal costs.

# Our Journey

From our foundation to the present day.

## 1998

Formerly known as Competitive Scale Sdn Bhd, focusing on Light Duty Shelving such as gondola and boltless shelving system

## 2001

Prestar Storage System Sdn Bhd was incorporated, together with a team of experienced and dedicated engineers and production personnel from Competitive Scale Sdn Bhd

## 2008

Sales and installation of the 'MYSTAR' Racking and Shelving Storage System in the Middle East and Southeast Asia regions, such as UAE, Saudi Arabia, Singapore, Indonesia, Philippines, and Sri Lanka

## 2012

- Incorporation of PT Prestar MHE in Jakarta, Indonesia, with core activities of sales and marketing of PSSSB products in the Indonesian market
- Expanding into Automation Solutions by introducing the Automated Storage and Retrieval System (ASRS) Racking as part of our product range
- PSSSB successfully secured the first supply of ASRS Racking to a reputable Japanese Factory in Johor, Malaysia

## 2018

Incorporation of our Thailand RO Registered Company in Bangkok to better meet local market needs

## 2020

Signing of Manufacturing Partnership Agreement with Murata Machinery Ltd (Japan) for the design, manufacture and supply of ASRS Racking System for Murata's ASRS projects

2005

Launch of 'MYSTAR' brand with expanded systems, ranging from Heavy Duty Pallet Racking System to Light Duty Boltless Shelving System

2007

Successfully secured as ODM shelving supplier for USA retailers.

2015

Successfully marketed its products to more than 30 countries worldwide

2017

Secured sales contract of the design, manufacture, supply and installation of Pallet Flow ASRS Racking System for an FMCG manufacturer in Manila, Philippines

2021 to Present

- Enhanced production capabilities with the introduction of our 35 metres high Upright Post, mainly for the ASRS Racking System
- Signing of an Extended Manufacturing Partnership Agreement with Murata Machinery Ltd (Japan) for the supply of ASRS Racking System for Murata's offices worldwide. This includes the USA, China, Taiwan, Thailand, Singapore, Hong Kong, Vietnam, India and Europe region.

# Vision

We aim to be your ultimate partner for racking and shelving storage solutions and become Southeast Asia's preferred intralogistics solutions provider. To this end, we continuously level up the 'MYSTAR' brand to comply with international standards and quality, ensuring the peace of mind of our clients.

# Missions

Our missions are:

**01**

To design, innovate and deliver high-quality pallet racking and shelving systems that meet international standards and the needs of various customers.

**02**

To remain committed, continuously improve and exceed the expectations of our clients.

**03**

To maximise storage space and enhance intralogistics efficiency by leveraging on our industry knowledge and experience.

# Core Values

Uniting our people and purpose.

At the heart of our organisation, our core values and company vision dictate our business direction and shape our culture. Our principles are a fundamental part of PSSSB's people and day-to-day operations, allowing us to make ethical decisions and fulfil our responsibility to our clients, stakeholders and business partners.

## Customer First

With decades of experience globally and locally, we understand customers' needs, providing tailored solutions and products to enhance their intralogistics performance.

## Quality Excellence

Our products are built with quality in mind, complying with British, EURO and FEM Standards. We ensure strict quality control and assurance with testing in the laboratory.

## Long-Term Thinking

We strive to lay a solid foundation with our customers and grow together with them as their business grows.

## Integrity

We believe that honesty and integrity are integral to a business's success. Thus, we uphold industry best practices and abide by all applicable laws and regulations.

# Our Strengths

What sets us apart.

## Knowledgeable Sales Team

With a proven track record.

We are proud to have delivered over 1,000 projects in the past five years, valued at more than USD50 million across Southeast Asia. This has earned us our reputation for excellent services and quality products without exceeding client budgets.

## Integrated Supply Chain

Trusted by brand and industry leaders.

Prestar Group has a combined purchase of more than 500,000 metric tonnes of crude steel. Additionally, we are the only Malaysian steel racking company to have established a joint venture with POSCO (the world's 3rd largest steel mill) for our supply of raw materials. With direct supply from the steel mill, our consistent supply and competitive offerings give us a competitive edge.

## Compliance with Design and Safety Standards

Where quality and safety are priority.

From the manufacturing to installation stages, we endeavour to enhance safety and reliability within your warehouses. Moreover, our products are lab-tested and certified by TUV in compliance with their quality assurance standards.

## In-house Design and Engineering Team

Professionals with utmost credibility.

Our design and engineering team comprises a group of professionals with diverse backgrounds and rich technical experience spanning over 15 years in the industry. This is why our clients turn to PSSSB for long-term and reliable solutions they can trust.

# Our Products

## Optimal storage and space with PSSSB

As a trusted intralogistics partner, we understand the need for seamless organisation and transport of products within your warehousing facilities. With workplace health and safety in mind, our products are designed and manufactured to meet stringent quality standards. Plus, our professional team works closely with you to plan, engineer, develop and deploy solutions that accommodate your requirements as your business expands.

Our custom solutions help businesses with the following:

- Safe storage and handling of products
- Enhancing ergonomics and processes
- Small parts storage
- Heavy components storage
- Flexible expansion and loading

## Light Duty Systems

### Compact and lightweight

Light-duty shelving systems at PSSSB can accommodate lightweight items, spare parts and cartons. Available in a number of configurations and adjustable shelves, our boltless shelving system can be customised to fit your storage and product needs. As an ideal solution for residential use, our light-duty storage racks can be used in retail store rooms, garages, exhibitions and more for easy access to goods.

**Boltless Shelving System**

## Medium Duty Systems

### Versatile and multifunctional

Catering to both industrial and commercial sectors, our medium-duty systems are suitable for storing medium-sized items, non-palletised goods and oddly shaped items. With quick and easy assembly, the long-span shelving rack system is a durable and versatile solution for compact storage with manual handling.

# Our Products

## Heavy Duty Systems

**Exceptionally tough and stable**

PSSSB offers commercial and industrial clients the right heavy-duty storage and shelving solutions for various applications and maximum throughput. Designed to withstand heavy and bulky loads, our heavy-duty racking systems can also be used for non-standard-sized items and items stored on pallets.

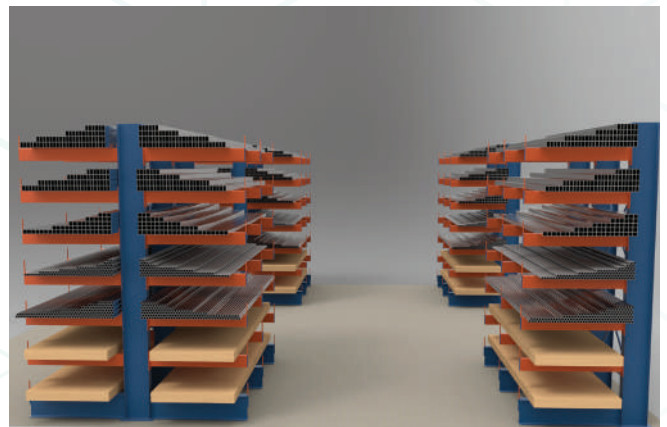

**Selective Pallet Racking System**

**Double Deep Racking System**

**Structural Steel Platform**

**Cantilever Racking System**

**Drive-In Racking System**

**Very Narrow Aisle (VNA) Racking System**

**Multi-Tier Racking System**

# Our Products

## Live and Automated Storage Systems

### Fully coordinated racking system

Whether partially or fully automated, our racking systems are designed to optimise existing workflows by enabling real-time tracking, storing and retrieval of items. This system helps to maximise storage space and allow automated access to various loads, and is especially useful for facilities with heavy loads and high throughput.
